India's Preferred Adhesive for over 60 Years

For more than half a century, the iconic Fevicol and its product range have evolved to meet the needs of woodworkers and homemakers across India.

The First and Last Word in Adhesives

Over the years, customers have been convinced of one thing - a little Fevicol can fix anything. Since 1959, we have been a step ahead, starting with the classic Fevicol, and innovating to create new-age adhesives that evolve with our customers' needs. This is a bond that is built to last.
